

PFAFF®

Results right at home.

GrandQuilter™ 18.8

The PFAFF®
GrandQuilter 18.8™

Long, Lasting Results

18 Inch Arm

Quilt even the bulkiest projects with room to spare! With an 18-inch wide space between the needle and arm of the machine, and 8 inches of height, the PFAFF® GrandQuilter 18.8™ easily handles large or bulky projects. It lets you stitch larger quilt patterns without having to roll fabric as often, too.

Automatic Stitch Regulator

Achieve uniform stitch results throughout, even as you change quilting speed or direction. Your PFAFF® GrandQuilter 18.8™ ensures uniform quality from the very first stitch to the last.

Auto Needle Position

You decide when the machine stops in the needle up or needle down position. Minimize bent or broken needles; maximize free movement of the machine.

Quilting Foot

You're in control of this versatile quilting foot, which holds the fabric in place while the needle completes the stitch. Adjust it up or down to accommodate the thickest batting or fabric, and use it right next to rulers and templates for total stitch accuracy.

Large Bobbin Capacity

Quilt longer between bobbin changes with the extra large capacity bobbin. Includes built-in bobbin winder.

Ergonomic Handles

Adjustable, ergonomic handles move up and down for maximum comfort while quilting. Rubber handle grips feel great.

Enhanced Support

The Inspira Imperial Quilt Frame by Grace Co. combines the great concepts of earlier models with exciting new features to enhance your quilting experience. The Imperial Frame is QBOT™ compatible and works with a variety of accessories.

You will enjoy the frame's full-featured carriage as it enhances your control and ease-of-movement along the track. The Imperial Frame, with its 2" Professional Series Rails and including the Fabri-Fast™ system is perfect for your PFAFF® GrandQuilter 18.8™.

The Inspira Imperial Quilt
Frame by Grace Co.

Height-Adjustable Legs

Adjust the height of your fabric surface in one-inch increments, from 36" to 42" for optimum quilting comfort.

Sturdy Frame Design

Enjoy amazing frame stability with an all-new angled leg design.

Large Diameter Professional Series Rails

The Imperial Frame's rails are a generous 2" in diameter and won't sag or bow, and the sturdy take-up rail is 1.5" to preserve your work area.

Radial Ratchets

Advancing your quilt is simple with the smooth ratchet system. Conveniently engage your ratchets from either side of the frame.

Rigid-Contact Wheel/Track Design

You'll maintain smooth carriage motion and eliminate flex with the Imperial Frame's multi-bearing wheel and track design.

Streamlined Assembly Process

Set up your frame faster with new, simplified assembly and the step-by-step instructional DVD, included.

QBOT™ by Inspira

Hands-free quilting

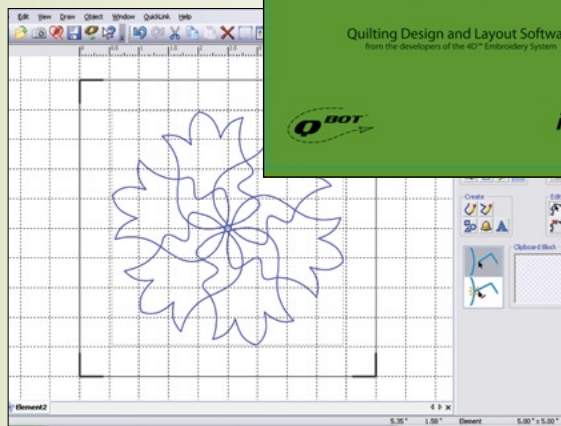

Professional Quilting Right at Home
 QBOT™ is Quilting Based On Technology. Automatic hands-free movement creates perfect designs, impossible to stitch by hand. Professional caliber quilting is yours!

Unfinished quilting projects? The QBOT™ by Inspira will help you complete all your projects in a fraction of the time.

Expand your creative potential

- Your imagination will guide you
- Photograph your quilt and import the image into QBOT™ Vision
- Use step-by-step Software Wizards
- View designs with the filmstrip
- Effortlessly fashion a quilt border
- Rotate or reflect a basic shape to create a more intricate design
- Adjust a free-motion motif of a recorded QBOT™ design
- Watch as your original quilt design comes to life
